

SETTING THE STANDARD

LIYALI AL TAIF

Pioneering Excellence in Energy Solutions

مؤسسة ليالي الطائف للمقاولات العامة

ABOUT US

Since the creation of LIYALI AL TAIF, our talented team and their dedication to excellence and superior service has been and continues to be what sets LIYALI AL TAIF apart from the competition. With a large and diverse resource base of leading experts and a solid financial standing, LIYALI AL TAIF has been able to provide uninterrupted and unparalleled support to our clients.

Our success factor is due to "no compromise on quality, safety and timely delivery" of services to our clients. LIYALI AL TAIF is managed by a team of professional managers having vast experience in the oil and gas and petrochemical sectors.

LIYALI AL TAIF believes human resources as its core assets, and has a full line of professionals to perform most of the industrial construction activities.

We present ourselves to serve your esteemed organization in Pipeline Construction, Electro-Mechanical and maintenance contractor for various small, mid-form and long- form contracts.

MISSION

To develop energy resources safely, profitably and responsibly to maximize value. We support our clients by providing the most cost effective and diverse services.

VISION

To achieve excellence in our industry as the leader globally respected, financially sound and positioned to generate future value for our stakeholders.

OUR VALUES

At LIYALI AL TAIF, what we do is important- and how we do it is even more so. Guided by our values of integrity, innovation and investment, we work hard to earn high regard of our partners.

Quality Assurance: A Commitment to Excellence

We are dedicated to providing safe, reliable, and practical products and services that meet the highest standards of quality. LIYALI AL TAIF has developed a robust quality management system, accessible through our online portal. This system has evolved over years of operational experience and adheres to stringent industry standards.

Leveraging the ALYALI Platform:

Experienced and Motivated Teams: Our team comprises seasoned professionals who are highly incentivized to achieve excellence.

Cost Efficiency: By utilizing our own equipment, we significantly reduce costs and project delays.

Strategic Objectives:

Identify High-Value Opportunities: We excel in discovering and capitalizing on compelling opportunities within the onshore energy production sector.

Proven Deal Sourcing: Our track record speaks for itself with numerous successful deals.

Local Expertise: We leverage our in-depth local knowledge to access transformative opportunities.

Rigorous Due Diligence: A thorough and strict due diligence process ensures that every opportunity is evaluated meticulously.

Major Area of Expertise

Hardware & Software Solutions

- Computer And Accessories
- Mobiles And Accessories
- Data Center Installation
- On Demand Custom Web Development
- Optimize Mobile & Web Apps Development - Smart Web Portal Development
- Content And Document Management System - Perfect E-Commerce Solutions
- Wordpress Multilingual Websites
- Server Installation And Cabling

Mechanical Works

LIYALI AL TAIF boasts a state-of-the-art fabrication facility equipped to handle a diverse range of Oil and Gas, Power plant and Chemical industry requirements. Our expertise encompasses:

PLATE FABRICATION

Plate Fabrication is utmost important to manufacture Steel Structural components, Pillars, Columns, Towers, poles, shades, buildings, etc. Equipments assemblies, sub-assemblies for material handling, pressure vessels, storage tanks, silos, mixers, cones, frames, Gas tanks, chassis, canopies, or custom designed plants are also manufactured by plate fabrications.

- PIPING Fabrication
- Mechanical Equipment Support - Silos and Cyclone Fabrication
- Steel Structural Fabrication

SEAMLESS SITE INSTALLATION SERVICE

We provide comprehensive site installation services to ensure the successful completion of your oil and gas projects. Our highly trained, experienced team and well following quality & Safety procedure

Offers:

- New Plant Construction Project Management
- Oil & Gas, Chemical Plant, Power plant Commissioning and Startup Support

STEEL STRUCTURAL INSTALLATION

- Pipeline Installation
- Rotating and Static Equipment Installation
- Gas turbine and Steam turbine Installation & Overhauling Service Support
- Heat exchanger Services
- Silo and Cyclone Installation

EXPERT MAINTENANCE AND SUPPORT

LIYALI AL TAIF understands the importance of ongoing maintenance and support for optimal plant operation. We offer a full spectrum of services, including:

- Equipment Overhauling Services
- Refractory Services
- Pipeline and Equipment Maintenance
- Scaffolding Services
- Quality and Inspection Support
- Plant Maintenance Services
- Catalyst Handling and Reactor Maintenance Support - Column and Vessel Services
- Chemical Cleaning & Water Jetting
- Plant Waste Management Services
- Turnaround and Shutdown Support

By partnering with LIYALI AL TAIF, you gain a single source for all your oil and gas engineering needs, from project conception to ongoing operations.

REFRACTORY

- Installation of Refractory materials to specification
- Furnace/Boiler/Re-Boiler/Thermal Oxidiser/Incinerator

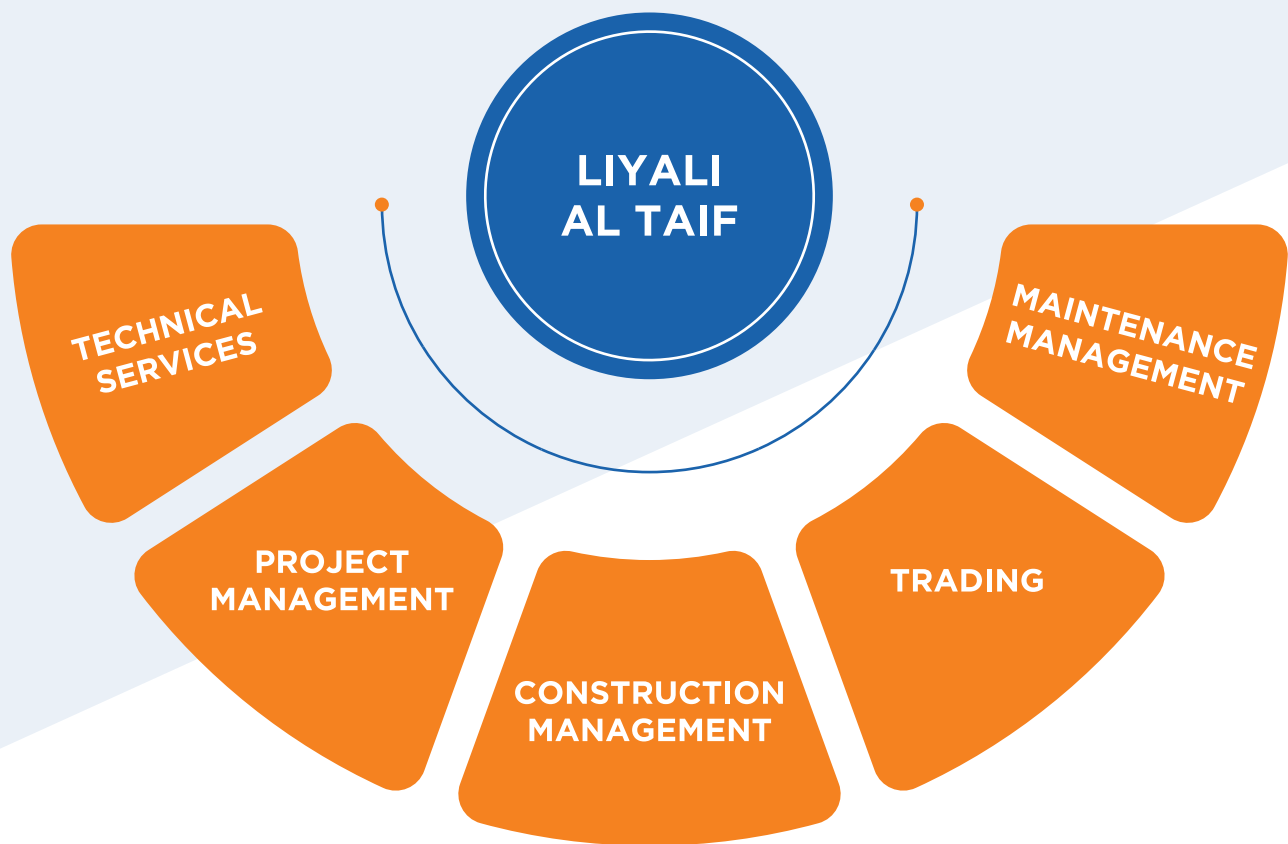

REFORMER/SULPUR PIT/ACID LINING

- Supply of all Refractory materials
- Technical support and maintenance
- Provision of drawings
- Thermal Dry Out of refractory
- Pre-casting Refractory shapes
- Shop installation of Refractory Linings

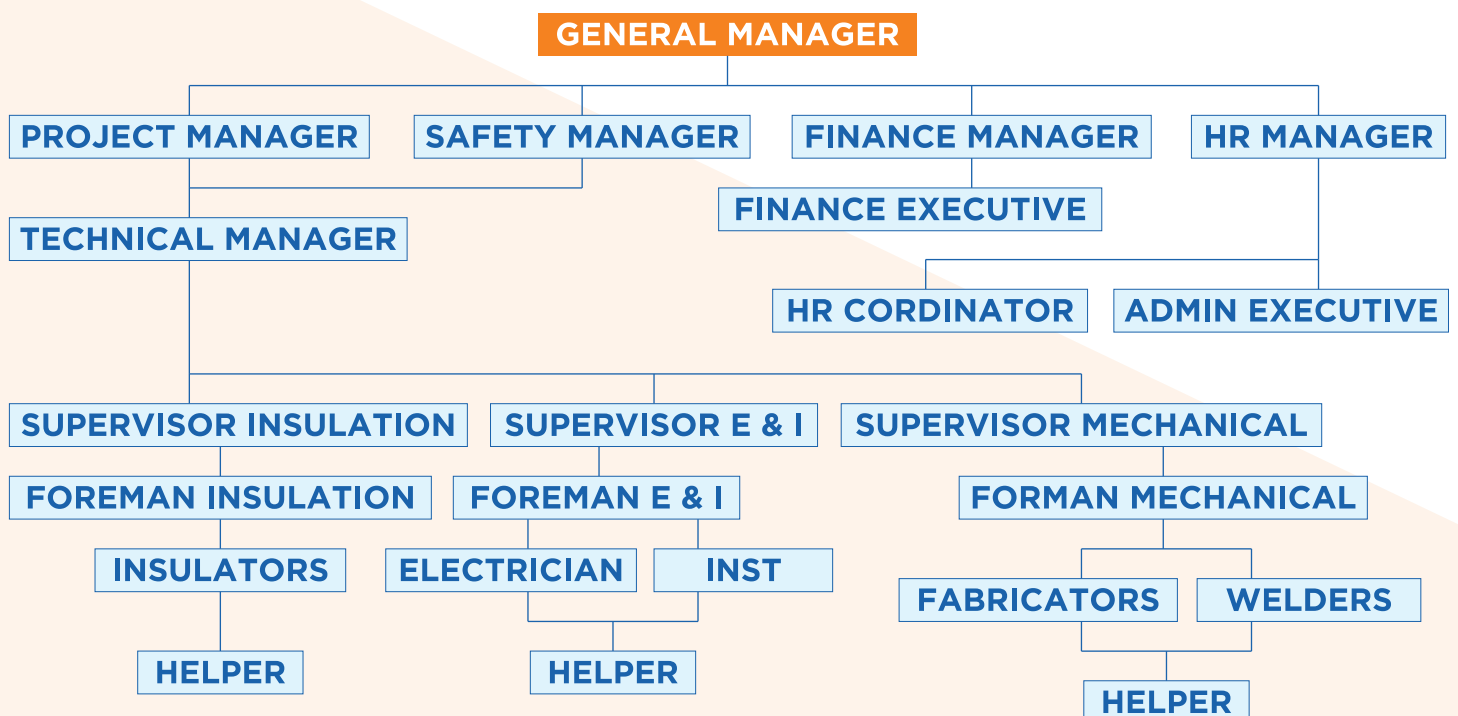

INSULATION SERVICES

- Hot, Cold and Acoustic Insulation Equipment Wessel Tank / Piping Insulation
- Rockwool / Fiber glass / Foam Glass / Armaflex Insuation All type of Metal Jacketing / Adding Work
- Insulation & Cladding on Turbine / Pumps - Furnace Insulation wok
- Temporary Insulation Work

Our Business Constrains

Organization Chart

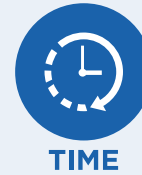

Quality Control System

LIYALI AL TAIF quality policy is the intelligent effort to excel in complete industrial needs. In pursuit of our mission to provide quality innovative solutions, excellent service and support to our clients, we will identify the best systems and procedures to assist our well trained employees to meet the goals and objectives. Our quality concern starts from the beginning. We consider that Quality Assurance is critical to the success of the business. So we established a QAS to ensure critical activities are planned, managed and reviewed effectively in conjunction with relevant personnel and clients.

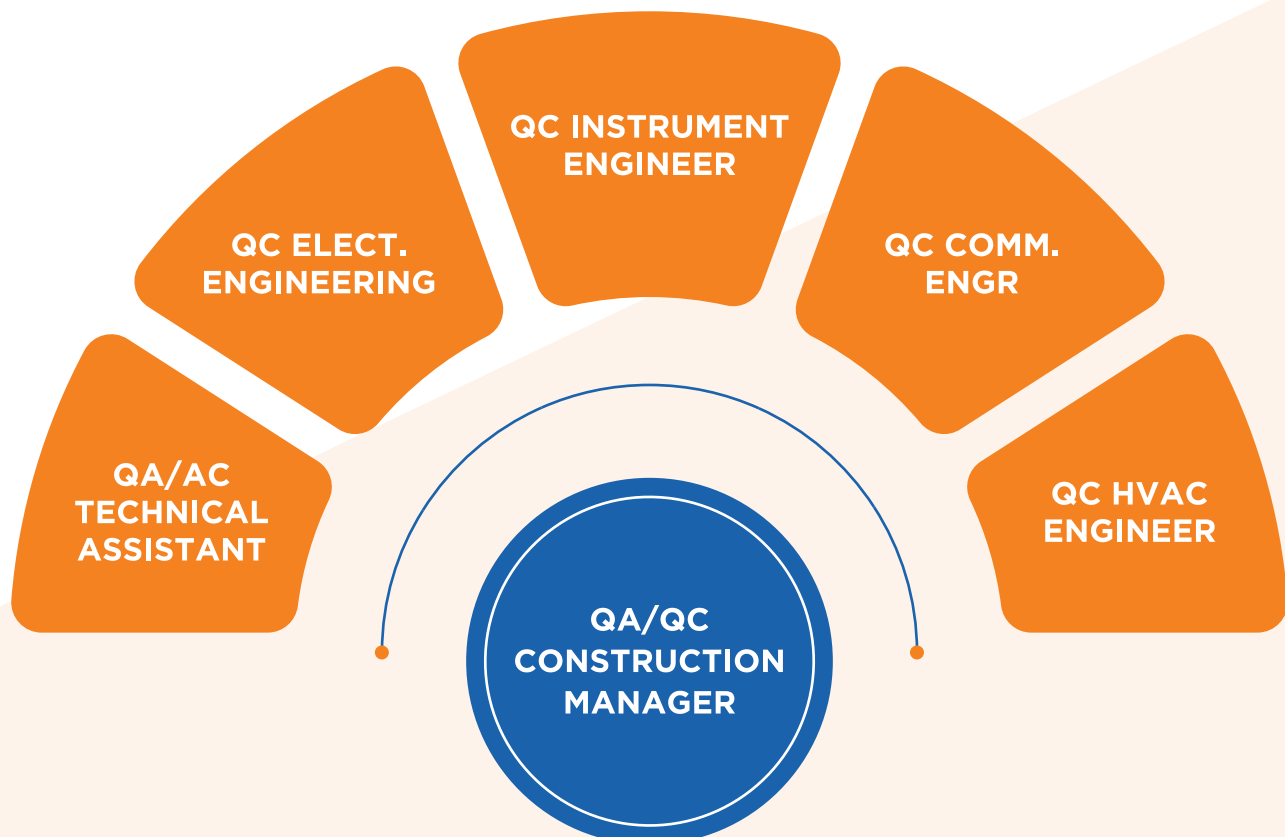

As we are concentrated in the engineering, construction, Insulation, Refractory, Electrical, Instrumentation, Operations and Maintenance of Oil & Gas, Petrochemical, Power plants and other reputed firms. LIYALI AL TAIF committed to establish a Quality Control Procedure. Following are our steps to achieve the target.

- Completion of project in time
- Provide high value to customer
- Implement new innovative technology
- Adequate training to employees

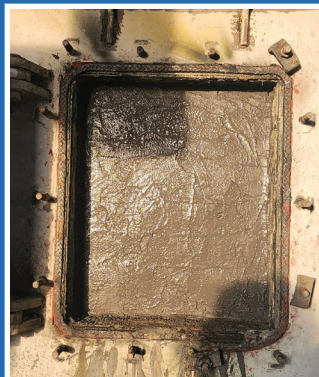

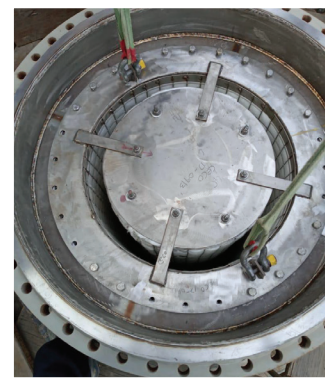

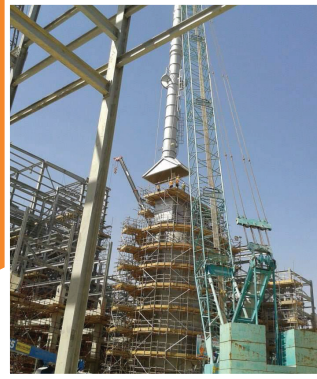

Our main office is located in the main street of Jubail down town (Jabal Street), Two warehouses located in Workshop Area Jubail, (Behind Atteiah Steel). The following staff will be available in the main office during working hours from 08.00 am to 06.00 pm and after that we are available on mobile and email. General Manager, Project Manager, Operation Manager, Personal Manager, Business Coordinator, Accounts Manager, Marketing Executive, Sales Personal

QC Structure of LIYALI AL TAIF

Why Choose LIYALI AL TAIF ?

We understand the complexities of Oil & Gas and Petrochemical Projects. Our commitment to Safety, Efficiency, and Quality ensures a seamless Project Execution, from concept to completion. Our team's vast experience and technical qualifications empower us to provide comprehensive solutions that mitigate risks and optimize project outcomes.

Why LIYALI AL TAIF ?

We are the industry heads and produce the most reliable and trendy solution you are looking for.
